

AMENDMENTS TO THE DRAWINGS

The attached eleven [11] drawing sheets replace all of the view numbers with English equivalents of their original Japanese counterparts. These sheets replace the thirteen [13] original sheets containing all of the figures.

Attachments: Eleven [11] Replacement Sheets

REMARKS

Drawings

The drawings that, in accompanying the present specification, were the basis of the examination in the instant application were those that were forwarded to the Office by the International Bureau in Int'l. App. No. PCT/JP2005/008745, of which the instant application was the National Stage, on September 15, 2006.

As thus being from the International application, the views in those drawings were labeled in the original Japanese. Furthermore, the drawings from the International application were on thirteen [13] sheets.

The eleven [11] drawing replacement sheets attached to this paper correct the numbering of all of the views, i.e., Figs. 1 through 14, from Japanese into English. But whereas in the drawings from the International application, the several parts of Figs. 1 through 8 and 14 (i.e., Figs. 1A-1D, Figs. 2A-2D . . . and Figs. 14A-14E) in each case spilled over onto the subsequent sheet, in the present submission the several parts of Figs. 1 through 8 and 14 have been confined to respective groups each on a single sheet.

Hence the presently submitted eleven [11] drawing replacement sheets containing Figs. 1-14 replace the original thirteen [13] drawing sheets containing Figs. 1-14 from the International application.

Accordingly, it is believed that correction in full of the informalities pointed out in the Notice to File Correct Application Papers has been made as required. Entry of the present amendment as provided for under 37 C.F.R. § 1.312 is earnestly requested.

Respectfully submitted,

April 8, 2010
